

# Discovery of Kangleipak (39)

*By Wangkhemcha Chingtamlen*

## **The Puya – Wakoklon Heel Thilel Salai Ama-ilon Pukok And Modern Science**

In order to appreciate the early civilization of Kangleipak, we, in the 21<sup>st</sup> century, may compare the modern scientific findings of the western world with those written in the puya in the matters in consideration.

### **The Big Bang Theory of the Origin of the Universe.**

Regarding this theory, the Brittonica Ready Reference Encyclopedia says: “Model of the origin of the Universe, which holds that it emerged from a state of extremely high temperature and density in an explosive expansion 10 billions – 15 billions years ago”.

In the background of this Big Bang theory of the very late AD, now we discover what is written in the Kanglei Puya as “*Eepungloi Apakpana Mathannata Leipa Yatatuna Haina Hummakpaki Hung | Hung | Ki Eewai Eeninna Niksillaktuna Famchillakpata | Thengnalupa Atupu Laiki Masani Haituna Laisa (Leisa) Haina Koukhipa Atupu Eenungpungtaki Eepungloinapa Apakpana Fukkhat Chinghat Thangkhatlakpata Loinalakpa | Amati Laisapu Thengnapataki Thoklakpa Kampi | Laicha | Malangpa Haina Koukhipa | Laipungthou Taletki Laiming Thontuna Eemai Faokhipa | Eemai Atupu Laiki Khuttamni – Lai Malle Haituna Malem Haina Koukhipa |*”

What has been written in the Puya is the beginning of the creation of the Universe by the Universal God Father what the Ancient Kangleichas called *Eepungloi Apakpa* or *Eepung Loinapa Apakpa*, who is indeterminate whole Entity composed of all bloods of all living beings.

### **The Universal Lord created the universe in stages:**

1. The *Eepungloi Apakpa* could not remain alone.
2. the *Eepungloi Apakpa* made sudden commotion and vibration with *Hung Hung* sound.
3. The commotion and vibration with the *Hung Hung* sound condensed into the *Laisa(Leisa)*, the Malem, the Earth.

4. The condensed *Laisa(Leisa)*, that is, Malem, the Earth was Raised by the *Eepungloi Apakpa* from His own *Eenungpung*(His own self Indeterminate Blood Whole Entity) along with Fire, Water, and Air.
5. The *Laisa(Leisa)*, Malem becomes created thus for the habitation of His created Living beings including the human beings, the last created living beings in his own image.

These things are the substance of the quoted portion of the Puya.

The writer translates the quoted portion of the Puya roughly into English as “As a result of the sudden commotion and vibration (with) *Hung Hung* sound of the *Eepungloi Apakpa* (Universal Lord) as he cannot remain alone, producing motion and condensation, the *Eepung Loi Apakpa*(Universal Lord) raised the *Malem(Leisa)*, the Earth resulted from the motion and condensation (from *Hung Hung* sound) from inside of His *Eenungpung* (from His own Blood Whole Entity) along with Fire, Water and Air.”

This is what the quoted portion of the Puya says in Rough English. What the writer assert is that the sudden commotion and vibration of the Universal Lord *Eepungloi Apakpa* with *Hung Hung* sound(Indeterminate Entity) condensed into the *Malem*(The Earth, a determinate material object as we see today) and it is a definite statement of the Puya as the Beginning of Creation of the Universe according to peculiar ancient Kanglei genius.

The writer further asserts that the “*Hung Hung ki Eewai Eenin*” in the Puya is the “Big Bang” as the beginning of the creation of the Universe according to present modern science of the west.

The “*Hung Hung ki Eewai Eenin*” theory of the beginning of the creation of the Universe is several centuries older than the “Big Bang” theory of Modern Science of the west.

*The humble writer invites comments from the scientific community.*

**Kanglei Ancient Astronomy and Modern Science of the West.  
Extraterrestrial origin of life:**

# DNA found in meteorites

Scientists have found components of DNA, the building blocks of life on Earth, in meteorites, a discovery they say confirms the theory that at least some of the materials needed to make early life forms came to our planet from space.

## Eleven meteorites

In the NASA-funded study, published in the *Proceedings of the National Academy of Sciences*, scientists used advanced mass spectrometry instruments to scan 11 organic-rich meteorites called carbonaceous chondrites and one ureilite, a very rare meteorite with a different chemical composition.

They found three nucleobases: purine, 6,8-diaminopurine and 2,6-diaminopurine — that are widely distributed in carbonaceous chondrites and which are “rare or absent in terrestrial biology,” said the researchers.

The scientists found no significant concentrations of the trio in soil and ice samples near where the meteorites landed, *LiveScience* reported.

Past research had revealed a range of building blocks of life in meteorites, such as the amino acids that make up proteins.

This was the first time all but two of these meteorites had been analysed for nucleobases, the researchers said.

“Finding nucleobase compounds not typically found in Earth’s biochemistry strongly supports an extraterrestrial origin.

“This shows us that meteorites may have been molecular tool kits, which provided the essential building blocks for life on Earth,” study co-author Jim Cleaves, of the

Carnegie Institution of Washington was quoted as saying to SPACE.com.

The analytical techniques probed the mass and other features of the molecules to identify the presence of extraterrestrial nucleobases and see that they apparently did not come from the surrounding area.

Two of the carbonaceous chondrites contained a diverse array of nucleobases and structurally similar compounds known as nucleobase analogs.

## Not found in soil, ice

Intriguingly, three of these nucleobase analogs are very rare in Earth biology, and were not found in soil and ice samples from the areas near where the meteorites were collected at the parts per billion limits of their detection techniques, the researchers said.

“At the start of this project, it looked like the nucleobases in these meteorites were terrestrial contamination — these results were a very big surprise for me,” said study co-author Michael Callahan, an astrobiologist at NASA Goddard Space Flight Center.

Laboratory experiments showed that chemical reactions of ammonia and cyanide, compounds that are common in space, could generate nucleobases and nucleobase analogs very similar to those found in the carbonaceous chondrites.

However, the relative abundances of these molecules between the experiments and the meteorites differed, which might be due to further chemical and thermal influences from space. —

PTI

The above is the xerox copy of an article published in the Hindu Daily News paper dated 11/8/11.

The sum and substance of the reported facts is that origin of life on the earth is extraterrestrial. The finding, we can say, is very recent, in the 21<sup>st</sup> century.

As against this scientific finding of the western world, the ancient Kanglei Puya has these in Black and White on the pages of the Scripture:

1. “*𑄀 (Ama) Hailipa Eepung Loinapa Apakpana Thouwaimichak Cheiyom Taletpu Eenunglon Khunnunglonna Chei-on Talet Haikhale.*”

Rough english translation: The *Eepung Loinapa Apakpa* (The Universal Lord, The Universal Father Creator) called the 𑄀 (One) has named seven *cheiyom* stars as *chei-on talet* in *Eenunglon Khununglon*.

In the above quotation “*Cheyom*” means a bundle of lives. *Cheyom* = *Cha* + *i* + *yom* = *cha* means Progeny, *i* = *Ee* = blood, *yom* = *Mayom* = bundle. Therefore “*Thouwaimichak cheiyom talet*” means a constellation of seven stars containing life-building materials. In the above quotation “*Chei-on Talet*” means Seven Days of the week from *Langmaiching* to *Thangcha* in which the God Father Creator created Human Beings taking seven days beginning on *Langmaiching*, completing on *Thangcha*. This is on the earth when the Earth has been inhabited by the living beings as we believe today. ‘*Chei-on*’ means *Cha* + *i* + *on* further means ‘becomes a child’ or Human Being.

2. “*Namu Taipangmiki Thowwaiki Machakne Haituna Eepungloinapa Apakpana Thowwai Michak Apakpa Oikhiye.*”

Rough english translation: The *Eepung Loinapa Apakpa* (The Universal Lord, Universal Father Creator) became *Thowwai Michak Apakpa* as (It) is the materials of (building) *Thowwai*(Soul) of the *Namu Taipangmi*(Human Beings, Homo Sapiens).

In the above quotation from the Puya Scripture “*Thowwai Michak Apakpa*” means a galaxy (a group of stars). According to the written Evidence of the scripture(Puya), it is a group of stars numbering one with 13 zeroes(10,00,00,00,00,00,00).

In sum and substance, what is written in the ***Wakoklon Heelel Thilel Salai Ama-ilon***, is that, a group of stars numbering 10,00,00,00,00,00,00 (one with 13 zeroes) called *Thouwaimichak Apakpa*(stars containing soul building materials) which is an Incarnation of the *Eepung Loinapa Apakpa* ( The Universal Lord, God Father Creator).

The above Extraterrestrial origin of life, we find today from the Puya, as written evidences, is at least about 4000(four thousands) years BP., several centuries older than the present scientific findings of the west.

In this matter also, the humble writer invites comments from the scientific world.

### **Kangleichas Traditional Belief.**

In Kangleipak since time immemorial, the Kangleichas believe and think that whenever a Meteorite falls inside the compound of a family, a woman in the family compound is pregnant, bigger the size of the meteorite, the child to be born will be higher in status in life.

The Kangleichas called a meteorite a '*Thouwaimichak Mathi*' literal meaning 'Dung of the star'.

This traditional belief simply means life is Extraterrestrial or Origin of Life is Space.

The Kangleichas called the space '*Ipa Sorarel(Ipa Salailel Sitapa)*' literal meaning 'Father Space' upto this day.

All what the humble writer writes in this short article about the Ancient Civilization of Kangleipak, with written Documentary Evidences, are simply claims that Kangleichas knew present scientific discoveries of west in these matters many many centuries BP.

Comments are invited from the scientific world. Please comment without fail.
